# About us

Fairmedics Private Limited is a fast-growing medical disposable manufacturing company, established in 2020 and headquartered in the industrial region of GIDA, Gorakhpur, Uttar Pradesh, India. The company is committed to producing high-quality healthcare products with a focus on safety, performance, and compliance with international standards.

Our state-of-the-art manufacturing facility spans over 16,000 square feet and is equipped with advanced technology and modern infrastructure.

We are specializing in the production of urinary care products, with a primary focus on **Foley Balloon Catheters** in both 2-way and 3-way variants, made with 100% silicone coating for enhanced patient safety and comfort

# Certification:

We are proud to be both ISO 13485 and CE certified, reflecting our commitment to quality management systems and regulatory compliance required in global healthcare markets. With a dedicated team of professionals and a customer-centric approach, we aim to support the medical community by delivering reliable and innovative disposable products.

# Mission:

Our mission is to enhance patient care and safety by manufacturing high-quality, reliable, and affordable medical disposable products. We are dedicated to innovation, precision, and excellence in every product we make, with a core specialization in urinary care product such as Foley Balloon Catheters. With a commitment to international quality standards, we strive to contribute meaningfully to global healthcare through ethical practices, continuous improvement, and customer-centric service.

# Vision:

Our vision is to become a globally recognized leader in the manufacturing of high-quality medical disposable products. Our goal is to empower healthcare providers worldwide with products that enhance treatment outcomes and contribute to better, safer, and more efficient medical practices.

# Content

- 1) - Foley Balloon Catheters
- 2) - IV Cannula -With Wings & Injection Port
- 3) - Hypodermic Syringe - Luer Slip
- 4) - Hypodermic Syringe - Luer Lock
- 5) - Hypodermic Syringe - Auto Disable
- 6) - Insulin Syringe
- 7) - Hypodermic Needles

# Foley Balloon Catheter

Foley Catheter 2 Way

Foley Catheter 3 Way

## Product Features

- ◆ A ultra-slim exceptionally flexible inflatable and hard non-return valve for inconvenience free swelling and flattening.
- ◆ Made of Silicone elastomer fortified with latex rubber.
- ◆ Minimizes the risk of encrustation.
- ◆ Elliptical side-eye.
- ◆ Trauma free catheterization.
- ◆ Color-coded valve for easy identification.
- ◆ Minimizes subsequent catheter blockage and failure.

## Available:

- ◆ 2-Way
- ◆ 3-Way

# I.V. CANNULA

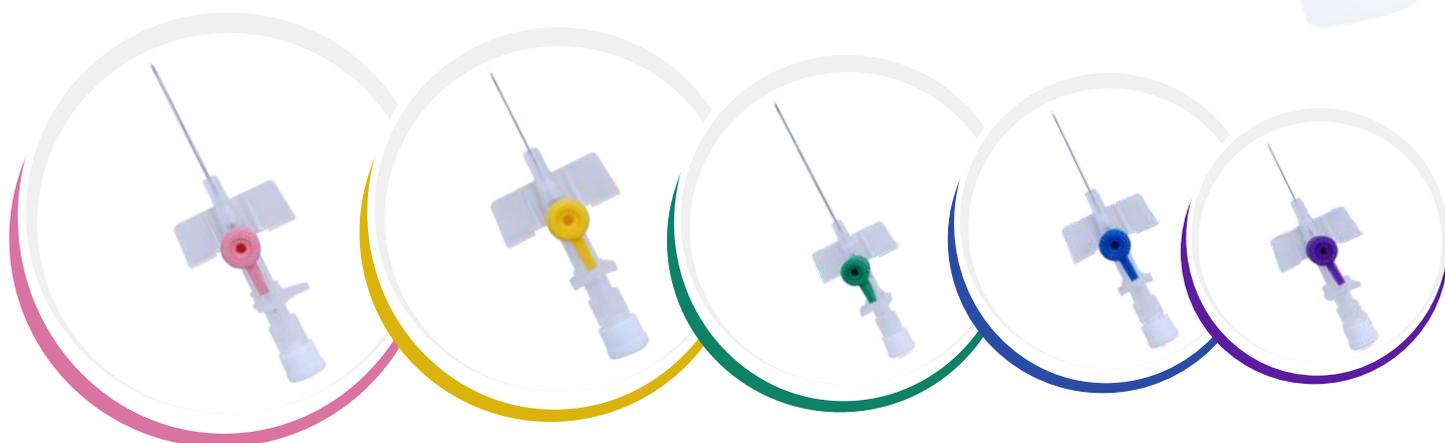

## With Wings & Injection Port

### Product Features

- ◆ Specially designed beveled back cut needle offers lower penetration force which is less painful to the patient.
- ◆ Needle hub designed for proper grip during insertion.
- ◆ Transparent flashback chamber for conformation of vein penetration.
- ◆ Specially made up of European catheter and Japanese needles, offer less penetration force.
- ◆ Needle cover designed for safe disposal of needle after catheterization.
- ◆ Color coded body for identification of gauge size.
- ◆ Sterile, non-pyrogenic.

### Available :

- ◆ With radiopaque lines
- ◆ FEP Catheter

Size	Catheter OD (mm)	Needle OD (mm)	Water Flow Rate (ml/min)
